

INTRODUCING

Crēdo VAULT

At Peli BioThermal, we understand the challenges of maintaining product integrity, reducing costs, and gaining real-time visibility into shipments. Crēdo Vault™ addresses these needs by accommodating **four units per PMC**, supporting **multiple temperature ranges**, and being compatible with both **EU and ISO pallets**. Its lightweight, durable design optimizes space and reduces costs, while **IoT-enabled monitoring** provides real-time visibility for the secure delivery of temperature-sensitive products.

THERMAL RELIABILITY

ISTA 7D PROFILE (MIN LOAD)

144 hours • +2 °C to +8 °C
• +15 °C to +25 °C

120 hours • Below -20 °C

CONTAINER RELIABILITY

ISTA 7D PROFILE (MIN LOAD)

4 Units per standard PMC pallet
Way pallet entry with ant-tip

3 Interchangeable temperatures
