

GOLDEN HOUR™ ONE

FEATURES

- Ultra-light storage and transport of one unit of whole blood
- Keep blood cool for up to 48 hours, regardless of weather conditions
- Dismount for up to 12 hours without external power
- Equip each soldier in a group to make blood in far forward areas accessible
- Reusable, rugged design for easy cleaning and replacement

SMALLER, NIMBLE PAYLOAD PROTECTION

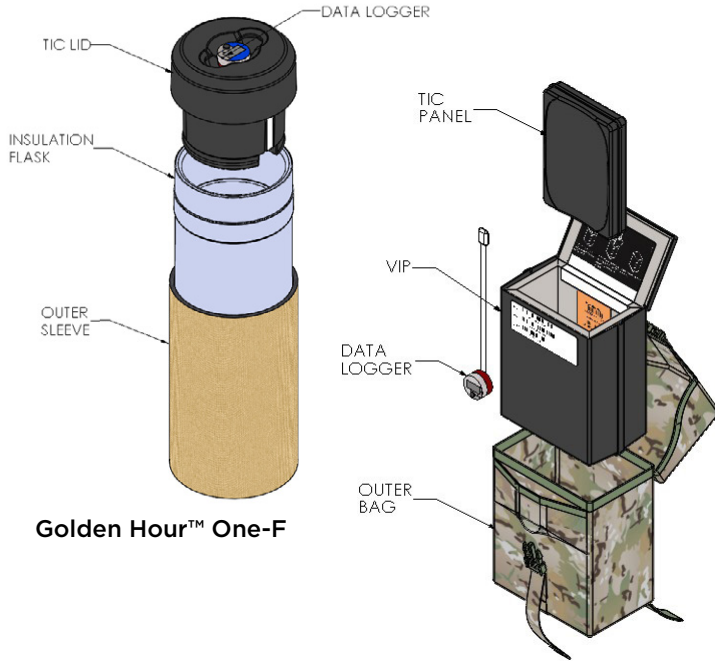

- Reduce payload risk, decrease distribution costs and lower environmental impact
- Easy, fast assembly and simple pack-out for all seasons

Our Golden Hour technology—winner of the 2003 Army's Greatest Innovation—has been helping you save lives on the front line and beyond for more than a decade. Now, the next-generation Golden Hour™ One carrier is at your service to easily transport a single unit of whole blood to far forward combat areas. With this extremely light-weight container, you can securely, reliably and safely transport blood and platelets where you need it most, regardless of extreme conditions.
